

SAU 24

John Stark School District

Collaboration Policy

The Henniker, John Stark, Stoddard and Weare School Boards support collaborative efforts among the administrations and staffs of Henniker Community School, Center Woods Elementary School, Weare Middle School, James Faulkner Elementary School, and John Stark Regional High School. The Boards believe that working as a single K-12 system will benefit students. Collaboration is particularly important to insure smooth transitions from one grade and from one school to another.

The Boards understand that working as a single K-12 system is a long-range goal that will take time and effort. The Boards expect that administration will report on their progress to work collaboratively at SAU fall and spring meetings. The Boards are particularly interested in data that indicate that collaboration has led to increased student achievement.

The SAU Board directs the SAU administration to develop goals and objectives on a yearly basis in furtherance of this policy to be approved by the SAU Board.
